

# THE DURISAN® DIFFERENCE

## 24 Hour Protection Against Germs and Bacteria

Disrupting the Sanitizing Industry With a Revolutionary, People, Animal and Earth Friendly Patented Formula.

### HOW IT WORKS

Durisan's unique solution causes microbes to be drawn to nano-spikes where they are pierced on contact, physically (not chemically) destroying the cell wall. Durisan does the job mechanically, it is environmentally friendly, with no harmful chemicals released into the environment.

### ANTIMICROBIAL GERMICIDAL HAND SANITIZERS

Traditional alcohol-based hand sanitizers have only 15 seconds of effectiveness, **while Durisan™ Hand Sanitizer offers active protection for up to 24 hours (or 8 hand washes)**. This water-based, chemistry provides a non-irritating solution that actively kills 99.9% of illness-causing germs for up to 24 hours while still leaving good bacteria on the skin. Lab tested to kill SARS Associated Coronavirus, N1H1, MRSA, Common Cold, Strep, E-Coli and many more.

- Active ingredient Benzalkonium Chloride (antiseptic) • Proprietary binding agent made with organic compounds
- Non-toxic & safe for children and newborns

DHS-1012: 8-OZ HAND SANITIZER

### CLEAN PLUSH TOWELETTES- INDIVIDUAL PREMOISTENED HAND SANITIZER

Clean push towelettes are long lasting, alcohol free, odorless and biodegradable. They have the same protection and technology as the antimicrobial germicidal hand sanitizers. This item is safe for for children and pets

DHS-3024 : CLEAN PUSH TOWELETTES, 80PK

### BROAD SPECTRUM GERMICIDAL DISINFECTANT SURFACE WIPES

Surface wipes featuring long-lasting protection effective in the presence of 5% of serum contamination. Durisan's™ bleach free and ammonia-free chemistry provides an environmentally safe and non-irritating solution that actively eliminates 99.9% of bacteria and human viruses including SARS Associated Coronavirus, Pseudomona's, MRSA, E.Coli, HIV-1, HEP (A,B,C). Animal viruses including Canine distemper, Feline Calicivirus, Pseudorabies among others. These wipes also tackle Mold, Mildew and Fungi.

STL-7816: 160 CT WIPES, 12 CONTAINERS/CASE

Makes 8 gallons!

### ANTIMICROBIAL GERMICIDAL SOLUTION- 16 OZ

The industry's first water-based broad spectrum antimicrobial germicidal solution. The average room can be completely sanitized in one minute and *keeps on sanitizing for up to 90 days*. Laboratory tested to kill SARS Associated Coronavirus, N1H1, MRSA, Common Cold, Strep, E-Coli and many more. Can be used as a fogging solution for a whole room to sterilize hospital wards, ambulance and rescue vehicles, medical clinics, laboratories and more. The fogger can sanitize an average room in less than one minute, dries in 3 - 10 minutes and keeps self-sanitizing for long after.

DC-200: SURFACE SOLUTION, CASE OF 6

### ELECTROSTATIC SPRAYER

When paired with the Antimicrobial Solution, the Electrostatic Sprayer offers easy and quick whole room sanitation. This safe and effective technology electrically charges and creates an ionic air field around a 3-nozzle system. The entire unit is constructed of chemically resistant materials and weighs just 7.5 lbs

ESP-100: ELECTROSTATIC SPRAYER

7620 Donna Dr. Middleton, WI 53562

The CoronaVirus (COVID-19) is a high concern for EMS, Medical, First Responder, Government and Military personnel. Officials and agencies are looking for ways to combat potential exposure. We want to introduce you to a line of disinfecting and sanitizing options that are available through Jefferson Fire & Safety.

Durisan Medical products are a People Friendly, Animal Friendly and Earth Friendly Patented Formula.

The Durisan™ Patented Antimicrobial Solution and Electrostatic Sprayer is set to change the way healthcare approaches disinfection. The electrostatic nozzle of the fogger interacts with the Durisan™ Antimicrobial solution, setting off a wonderful chain of events that leads to the creation of sub-micron Nano-Spikes that instantly pierce the membranes of viruses, bacteria, germs and microbes-destroying them completely. Laboratory tested to kill SARS Associated Coronavirus, N1H1, MRSA, Common Cold, Strep, E-Coli and many more. The electrostatic sprayer charges the spray with a positive charge, causing it to cling to the negatively charged surfaces in the area, making it possible to completely sanitize the average size room in minutes, killing 99.9% of illness causing germs.

Their patented formula is durable, **keeps on self sanitizing for days**, does not create super bugs and puts time and energy where it belongs, on the patient.

Their long-lasting hand sanitizer, hand wipes, antimicrobial hand soap and brand new surface technology provide a streamlined portfolio of products to address the many hand hygiene and surface disinfecting challenges facing the healthcare industry. Durisan™ products are **100% made in the USA**.

- All Durisan Disinfecting products are **EPA certified**.
- All Durisan Sanitizer products are **FDA approved**.
- Protection lasts up to **24 hours** or more.
